

## McMaster Psychiatry Research Day CANCELLED

Kerkhof, Alison

**Sent:**Friday, March 13, 2020 4:21 PM

Dear all,

In light of the emerging COVID-19 situation, and in an effort to enact social distancing protocols recommended by public health agencies, we regret to inform members of the Department that **this year's Research Day activities will be cancelled**. This is inclusive of the poster competition and the research staff award.

We have been in close contact with our external speakers, Drs. Stefan Hofmann, David Moscovitch and Paul Arnold, all of whom have agreed to join us for next year's Research Day.

Please note that if you had already registered for Research Day there will be no charge made to your accounts, and all cheques received will be cancelled.

We thank all those who submitted abstracts this year and highly encourage you to resubmit your work for future Research Days.

The Department is very grateful to Randi McCabe and Karen Rowa for their outstanding efforts to put together such a wonderful Research Day program, and to Alison Kerkhof and Nicole Sloss for their many organizational efforts on our behalf.

We look forward to seeing everyone at Research Day next year.

Best,

The Research Day Organizing Committee
