

EDUCATION SCHOLARSHIP AND INNOVATION COMMITTEE

SCOPING EXERCISE

This questionnaire is designed to determine areas of educational interest and current educational research. The information collected will be used solely by the Education Scholarship and Innovation Committee to coordinate departmental research and education activities.

What is your current educational role within the department?	
What educational scholarship activities are you currently involved in?	
Do you currently have any educational research grants? If yes, how many?	
Do you currently have data that could be used for educational research purposes? If so, please describe.	
Are you interested in participating in the committee's work of developing educational scholarship foci and an associated work plan scholarship (i.e., short and long term)?	
Do you have an area of interest in education research?	

Psychiatry &
Behavioural
Neurosciences
