

## Dr. Randi McCabe, BSc, MA, PhD

---

**HEALTH SCIENCES**  
Psychiatry & Behavioural  
Neurosciences

### Research Work

I have a number of research projects I am currently involved in including the validation of the Diagnostic Assessment Research Tool (DART), understanding cannabis use and anxiety, and enhancing learning with neuromodulation in OCD.

### Engagement Opportunities

#### Introductory Level

- There are opportunities to be involved running participants in study protocols
- Assisting with data entry
- Other research related tasks (e.g., literature reviews)

#### Intermediate Level

- There are opportunities to be involved in data analysis and writing of manuscripts

#### Advanced Level

- There are opportunities to generate a research question and use existing databases to test hypotheses

*If you are interested in learning more, please leave your contact information with the Research Office and/or contact Randi McCabe (rmccabe@stjoes.ca).*
